Office Action Summary	Application No. 09/778,125	Applicant(s) CESARCZYK, EDWARD J.	
	Examiner Lyle A Alexander	Art Unit 1743	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-21,26-29 and 31-34 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Cesarczyk et al.

See the appropriate paragraph of the previous Office Action.

With respect to the 1/2/04 amendments, Cesarczyk et al. teach in column 5 lines 46+ the sample collecting foam element(8) is compressed when entering housing(4) and causes the expression of sample onto the sample receiving zone(35). The Office has read the claimed fluid chamber for holding the specimen with the hollow portion of the housing adjacent to the test membrane on the above arrangement of the sample receiving zone(35) and housing(4) [e.g. the zone(35) within housing(4) create a fluid chamber for holding the specimen].

Response to Arguments

Applicant's arguments filed 1/2/04 have been fully considered but they are not persuasive.

Applicants state Cesarczyk et al. fails to teach the claimed fluid chamber for holding the specimen with the hollow portion of the housing adjacent to the test membrane. As state above, the sample receiving zone(35) and housing(4) create a fluid chamber for holding the specimen that reads on the claimed arrangement.

Allowable Subject Matter

Claims 22-25 and 30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: Cesarczyk et al. fails to teach or anticipate a separate aperture associated with the fluid chamber that controls the sample flowing into or out of the sample collection chamber.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
